

Follow the leaders...

...benefit from the
alcohol activated vehicle
immobiliser for the Bus
and Coach industry

The vehicle
engine will not
start if the driver's
alcohol level is
over a pre-set
limit

- The Alcolock® Lion DS®-10 has been adopted by UK market leaders.
- It is already a proven deterrent for the 'morning after' drink-driving scenario.
- Individual vehicle readings can be transmitted live to base via internet or mobile technology so in the event of a driver failure a contingency can be implemented quickly.
